

Our latest flagship breaks new ground. Reflecting our owners needs and desires, the Pearl 75 brings together sumptuous space with luxurious styling and outstanding levels of comfort. Add to that the impressive manoeuvrability, a class beating flybridge, a jet ski garage and a hydraulic bathing platform and you have a yacht that will have our competitors reaching for the drawing board.

Large rectangular bonded glass port lights flood the cabins with sunlight by day, and moonlight by night. Vast areas of specialist glass maximise light to the saloon, galley and internal helm areas creating bright, open spaces.

The Pearl 75 boasts a class-leading interior where multiple layout and styling options ensure each yacht is created to meet your personal requirements. Accommodation areas, designed to maximise space, are all impeccably finished to Pearl's exacting standards.
